The European Project “*DXB – Identities on the move – Documents cross borders*” aims to facilitate the dissemination and implementation of Regulation (EU) 2016/1191 in the everyday practice of several EU Member States, improve the knowledge of the links between circulation of public documents, fundamental rights and freedom of movement, ensure a sound implementation of the Regulation for “hard cases” and raise awareness among registrars and legal practitioners. The partnership is supported by a consortium of academic institutions and associations of registrars. More information on the Project and its partners on the [official website](#).

DxB’s Final Conference takes place on **23–24 June 2022** at the premises of A.N.U.S.C.A.’s **Academy in Castel San Pietro Terme, Bologna (Italy)**. The conference will offer a unique opportunity to take stock of the implementation status of Regulation (EU) 2016/1191. The event will also launch the Project’s outputs, such as Commentary and the EU-wide comparative survey placing the Regulation in the context of daily national practice.

The Conference will be a truly international event, gathering scholars, registrars, public administrators, political scientists, judges, PhD students and practitioners from all over Europe. Translation service is offered in **English, Italian and German**.
